

## Quotations for Aerial LiDAR Survey

### Response to Queries from Survey Contractors

Some of the Survey Contractors who are potential bidders for the aerial LiDAR Survey for the Jhelum River Basin Flood Mitigation and Management Project have submitted queries regarding the Survey Brief by the stated deadline date of 28<sup>th</sup> January, 2019. The following is a listing of these queries together with Eptisa's responses.

QUERY NO.	RFP Section/Clause no	QUERIES FROM SURVEY CONTRACTORS	RESPONSES FROM EPTISA
1	Eligibility Criteria 4) Similar Projects	Suggested amendment regarding overseas bidders.	No amendment to the current clause will be accommodated.
2	Eligibility criteria point vii - ownership of survey grade GPS equipment	Request to allow leased equipment	Leased equipment is acceptable providing documentation of current lease agreements is provided.
3	Introduction – Ground control points	What is the accuracy of the GCP and please confirm GCPs are well spaced	Standard error $\leq 0.005m$ GCPs spacing $\leq 5km$
4	Eligibility Criteria 4) Similar Projects	Request relaxation of requirement for similar projects of at least 1,000km <sup>2</sup> under single work order.	Not acceptable – the company's track record of undertaking projects of a similar magnitude must be established.
5	Special conditions of contract	Request to extend timeline from maximum of 3 months to a minimum of 5 months	Not acceptable due to project time constraints.
